

82-019241

25 January 1982

MEMORANDUM FOR: Executive Director of Central Intelligence

FROM: James N. Glerum
Director of Personnel

SUBJECT: SIS Ceiling and FTE

REFERENCE: Your Memo dtd 22 January 1982, same subject

Based on current projections and discussion with the Comptroller, I believe we will know what we need to know on FTE by March. With respect to SIS ceiling, the DDCI previously recommended we wait until May before firing the first round. Although SIS ceiling does not become an issue until July, we know enough now about SIS attrition and available headroom to begin developing strategy. We should be ready to talk in late February or early March.
